

ICAFEE 2019

Date: October 18-21, 2019

Venue: Feng Chia University, Taichung, Taiwan

4th International Conference on Alternative Fuels, Energy and Environment (ICAFEE): Future and Challenges

<http://www.icafe-e.com/>

Call for Paper

This conference mainly focuses on waste to energy conversion technologies, alternative (bio)fuels, bioenergy and the production of value-added platform chemicals. We hope that the scientific program will be useful and informative to all the participants. We would like to enlarge the social impact of this conference by combining academic experts, industry development and social innovation. I would like to invite the social enterprises to be the suppliers (ex. food, survivor and technical activity) for this conference. A new, an interactive scientific writing and skill development workshop will be conducted for MS and PhD researchers attending ICAFEE 2019.
